Professional Summary

With 4+ years of experience, I specialize in backend-focused full-stack development across the Banking, Tour & Travel domains and enterprise-grade version management platforms. I focus on system design, integrations, and delivering high-quality, cost-effective solutions.

Work Experience

Software Engineer Nov 2025 – Present

Intellect Design Arena Limited, Pune, India *Trade Finance & Counterparty Onboarding*

- Develop backend services for trade finance modules (Letter of Credit, Outward Guarantee, Inward Collection) in Java, Spring Boot, AWS and Microservices for international banking clients.
- Built a counterparty onboarding portal for a client bank, featuring a RESTful customer application and a hybrid REST/monolithic banking application using Java, JSP, Servlets, and Spring Boot.
- Implemented a custom email notification system using XML, queues, and SFTP, with routing logic covering 12+ cases and 50+ alerts.

Senior Software Engineer Jul 2022 – Jul 2025

AlgoDomain Solutions, Pune, India *Travel & Version Management System*

- Built and optimised an airline reservation system (Java, Spring Boot, Node.js, TypeScript, AWS, OpenSearch, Grafana); integrated new airline partners and round-trip search, **increasing bookings by 10%**.
- Optimised log handling in AWS OpenSearch, **removing 80% of redundant flight logs and cutting costs by 20%**.
- Analysed and optimised the Redis (ElastiCache) caching architecture, providing clear insights for higher management through detailed reports and charts.
- Built Java/TypeScript AWS Lambdas covering flight search through to reservation, and a Spring Boot Lambda/Batch ETL pipeline moving data from OpenSearch to PostgreSQL for analytics.
- Developed Java and TypeScript AWS Lambda functions covering flight search through reservation, supporting end-to-end booking workflows.
- Developed a Spring Boot-based AWS Lambda/Batch ETL process to extract and process document metadata from OpenSearch into PostgreSQL, enhancing the version management system.
- Designed a version migration tool for the banking sector that automates dependency upgrades and Git operations (Spring Boot, Maven, OpenRewrite, TypeScript, Next.js).

Technical Skills

Languages	Java, TypeScript, JavaScript, SQL, PL/SQL
Frameworks	Spring Boot, J2EE, Servlet/JSP, Node.js, Express.js, React.js, Next.js
Cloud (AWS)	Lambda, Batch, SQS, SNS, S3, EC2, DynamoDB, OpenSearch, ElastiCache
Databases	Oracle, PostgreSQL, MySQL, MongoDB, Redis, SQLite
Tools & Other	Maven, Git, REST APIs, JSON, XML, SWIFT messaging, Grafana, Kibana, Linux

Education

MSc in Information Technology 2020 – 2022

Punjabi University, Patiala, India CGPA: 8.17 / 10

Bachelor of Computer Applications (BCA) 2017 – 2020

Punjabi University, Patiala, India CGPA: 7.01 / 10

Languages & Certifications

Languages: English (Professional working proficiency), Hindi (Native), Punjabi (Native)
